THEN

You will randomly be assigned a square on the 10 x 10 grid. If you pay in person, you may pick your square personally (numbers will not be drawn for the grid until all squares have been assigned.)

POOL INFORMATION:

\$20.00 per square

1. The Super Bowl pool will consist of a 10 x 10 grid making up 100 squares. The ENTRY FEE is \$20 per square. There is no limit on the number of squares a person may buy.
2. After all the squares have been purchased, the numbers 0 - 9 will be randomly selected and assigned to each of the 10 columns in the grid. The numbers 0 - 9 will again be randomly selected and assigned to each of the 10 rows in the grid. The numbers for each column and row represent the last digit of the score for the teams playing in the Super Bowl.
3. All fees are due by February 9, 2024 by noon. Purchase your squares ASAP. Once all the squares are sold, no further entries will be permitted and there are no refunds.
4. The player who owns the square that represents the score at the end of each quarter during the Super Bowl will win. The payout is as follows: \$200 at the end of the 1st quarter; \$200 at the end of the 2nd quarter; \$200 at the end of the 3rd quarter; and \$400 at the game final. The final score will be used in place of the 4th quarter score if the game goes into overtime.

For example, if the score at the end of the 1st quarter is 3 (Chiefs) - 14 (Buccaneers), the person who has the square in column 3 (Chiefs) and the row 4 (Buccaneers) will win.
